Flow Furniture Ltd.

&

Flow Contracting Ltd.

are sister companies based in Hong Kong. Flow Furniture specializes in commercial and school furniture, while Flow Contracting specializes in school remodeling and furnishing projects.

“ONE-STOP COST-EFFECTIVE SOLUTION”

ABOUT US

FLOW
CONTRACTING

FLOW
FURNITURE

Our goal is to provide a cost effective one-stop solution for businesses in Malaysia to procure commercial furniture and renovation materials.

Why choose a company in Hong Kong instead of a local Malaysian company?

OUR STRENGTHS

STREAMLINED PROCUREMENT

Our efficient pipeline reduces the complexity and difficulty of sourcing the precise furniture and materials that you need. You can find exactly what you need without the headache.

RAPID DELIVERY

Shipping to Malaysia from the Pearl River Delta only takes about 10 days. You can save both time and money on delivery.

QUALITY CONTROL

We guarantee a level of quality control that most Malaysian companies cannot match.

SAVE MONEY on procurement and delivery by using our services.

+852-2323-3733

flowcontracting.hk
flowfurniture.hk

UNMATCHED SELECTION

Most Malaysian companies have limited and localized catalogs, but our international supply chain can give you access to a massive selection of furniture and materials.

OUR OFFERINGS

WHICH TYPES OF FURNITURE DO WE SUPPLY?

- Office Furniture
- School Furniture
- Hotel Furniture
- Restaurant Furniture
- Hospital Furniture
- Residential Furniture
- Light Fixtures

Even if you require very specific and niche furniture, our supply chain and contacts can find it for you.

WHAT RENOVATION MATERIALS DO WE SUPPLY?

Our supply chain can provide just about any material that a renovation or remodeling project might need for floors, walls and ceilings.

In summary, we seek to provide businesses in Malaysia with access to international manufacturers of commercial furniture and renovation materials - and deliver them quickly to Malaysia. Through our strong and efficient supply chain, businesses can procure high quality products in a timely manner at a competitive cost.

OUR PIPELINE

How we streamline your procurement process

INITIAL CONSULTATION

We discuss and analyze your project to find out exactly what you need, and which manufacturers you want to use.

PROCUREMENT

We send the list of materials and furniture that you need to your chosen manufacturers.

QUALITY CONTROL

We meticulously check all of your materials and furniture before they are packed for shipment.

CONSTANT COMMUNICATION

Throughout the entire process, our team will give you constant updates and communication with relevant information for peace of mind.

DELIVERY

We deliver the items you need directly and quickly to Malaysia.

TIME TO START!

By using our services to bypass the complicated and time consuming task of procurement, you can focus your time and energy on the projects at hand!

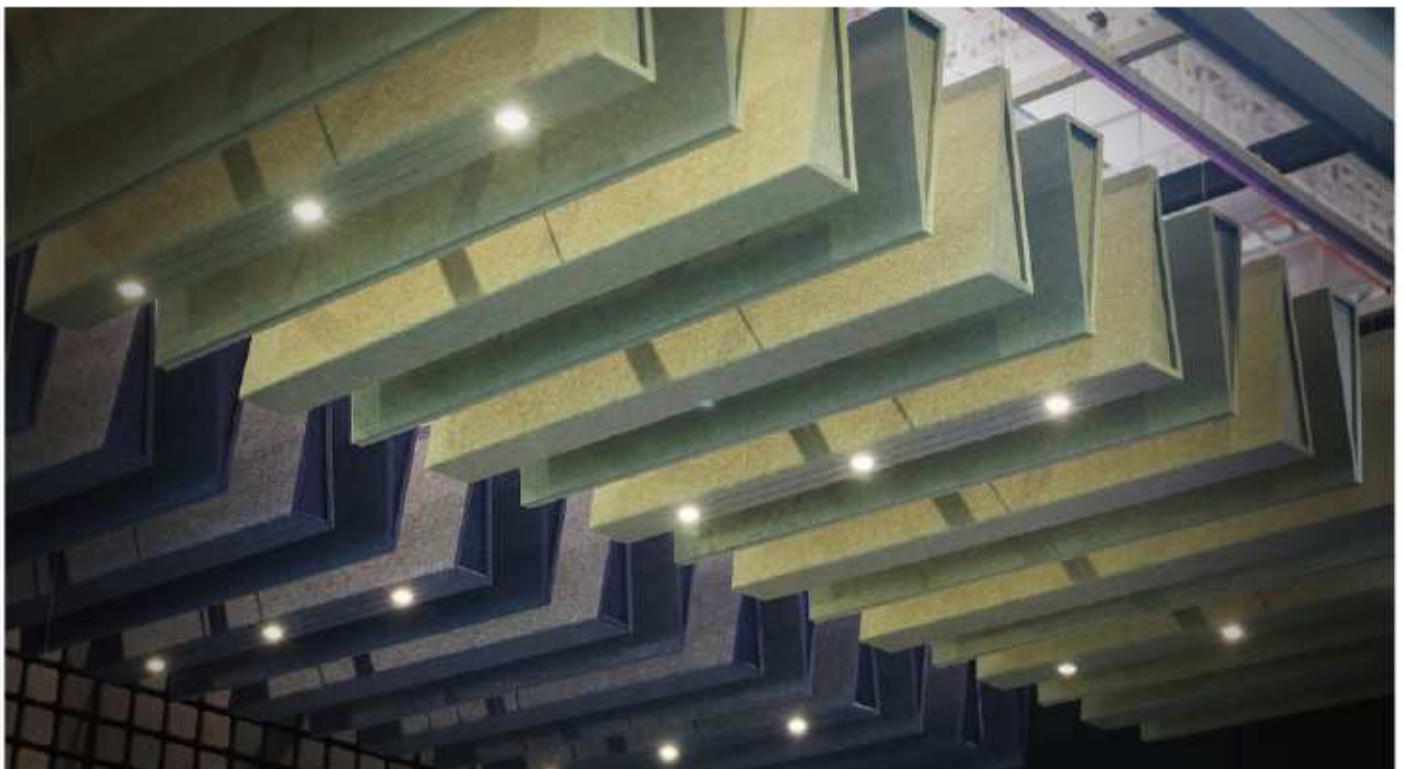

RENOVATION MATERIALS

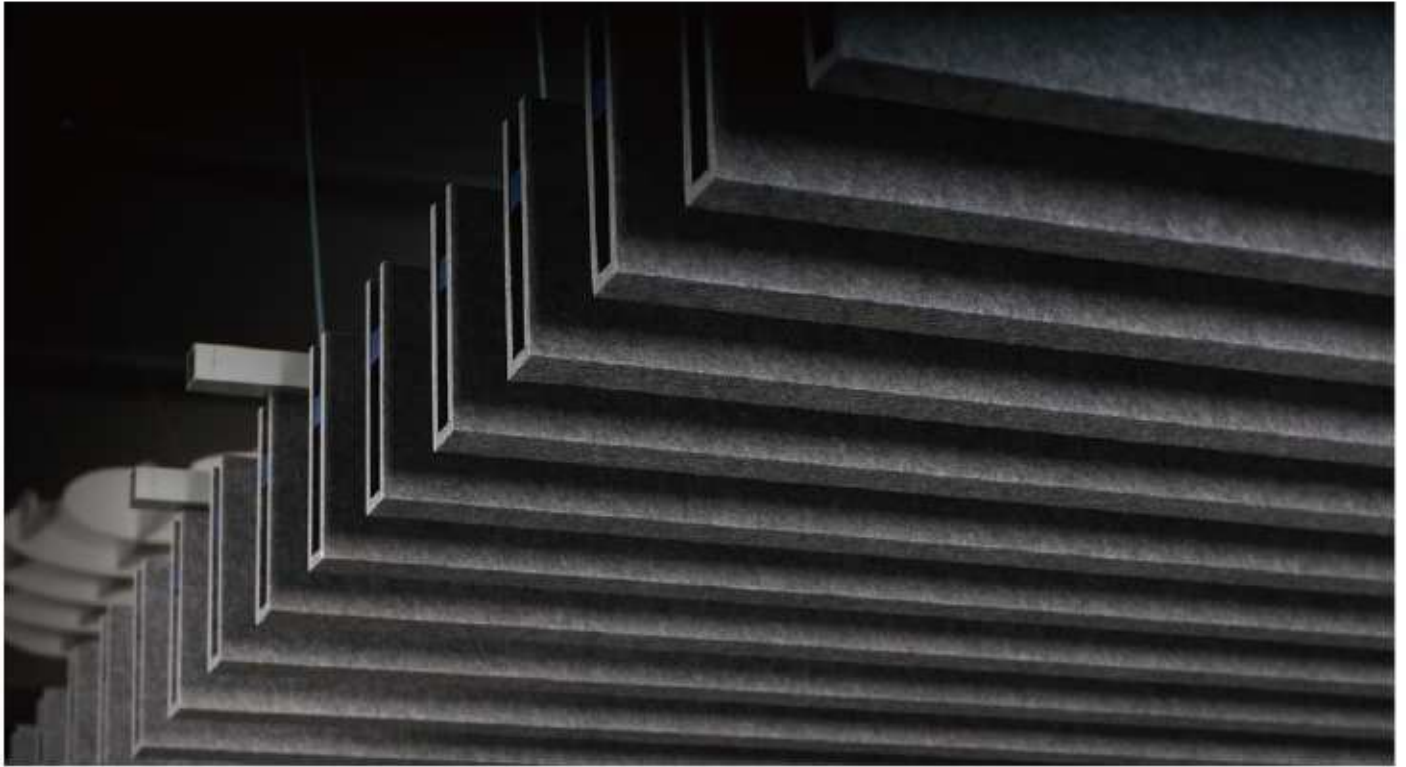

ACOUSTIC CEILING PANELING

The main purpose of acoustic panels is to reduce and absorb noise indoors. Whether it is for a music studio or simply to quiet a room with unwanted echoes, this modern material can help. The acoustics and visual appeal of a room can be customized to your specifications.

- 100% PET
- Fire resistant
- Durable
- Customizable colors
- Customizable graphics
- Easy to install

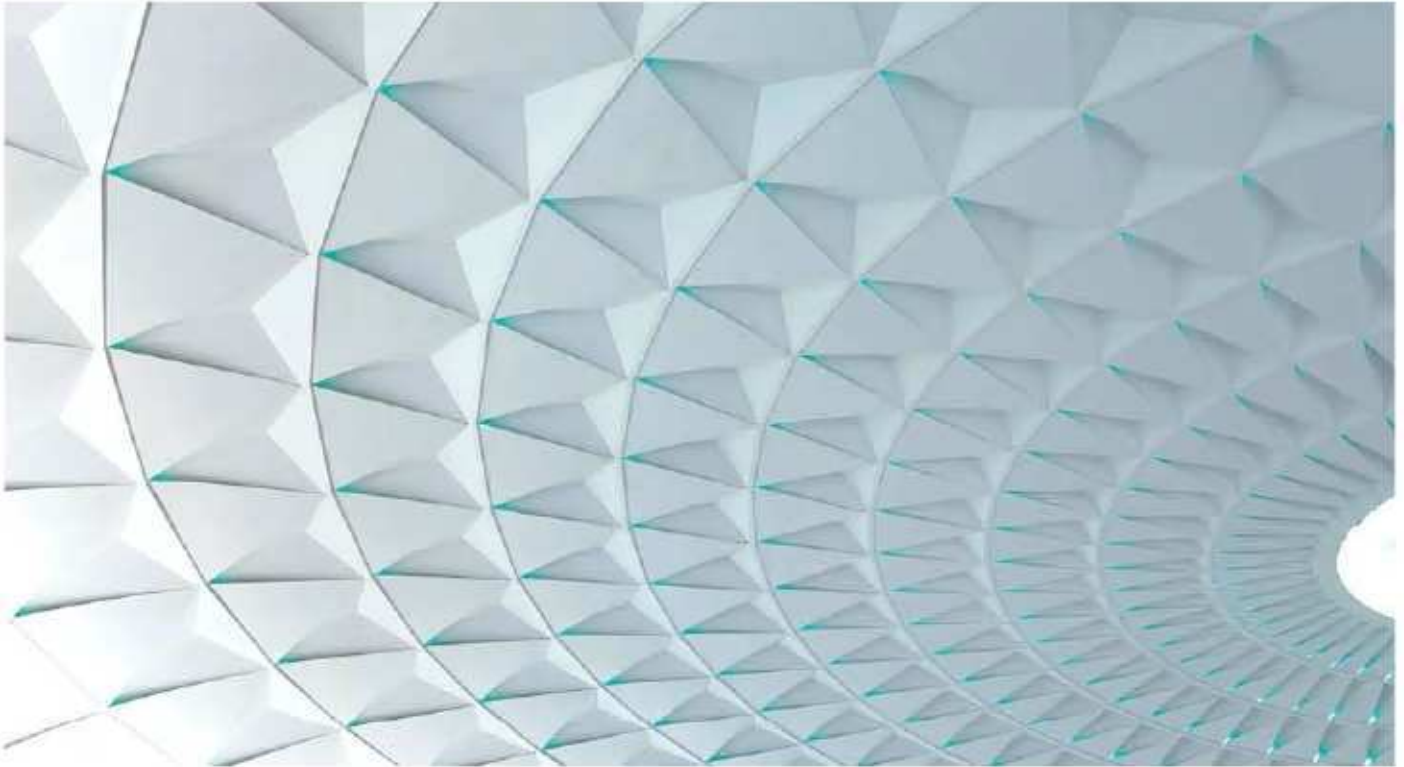

All of the acoustic ceiling paneling examples shown in this brochure are suspended from the ceiling

ALUMINUM CEILING PANELING

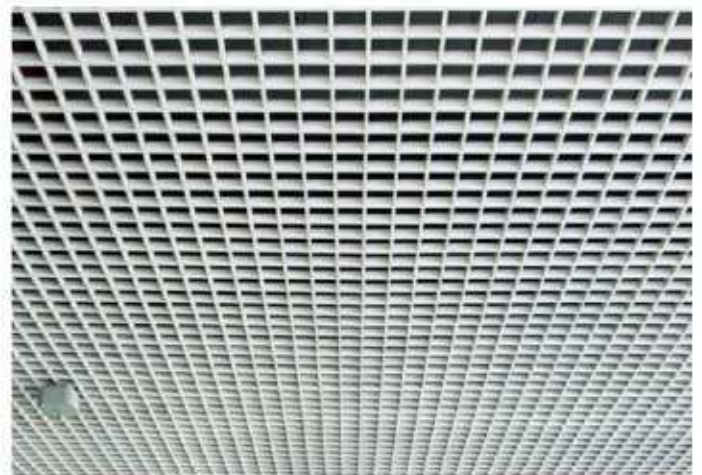

Aluminum alloy panels and sheets can be used to create designs in many styles and many sizes. It is an extremely versatile material that can be shaped into infinite styles and used for just as many purposes.

- Resistant to fire, moisture, wind, pollution, rain etc.
- Low weight
- Many shapes and designs
- Can be painted
- Outdoors or indoors
- Easy to install and replace
- Low maintenance
- Long lifespan

'Punching Veneer'

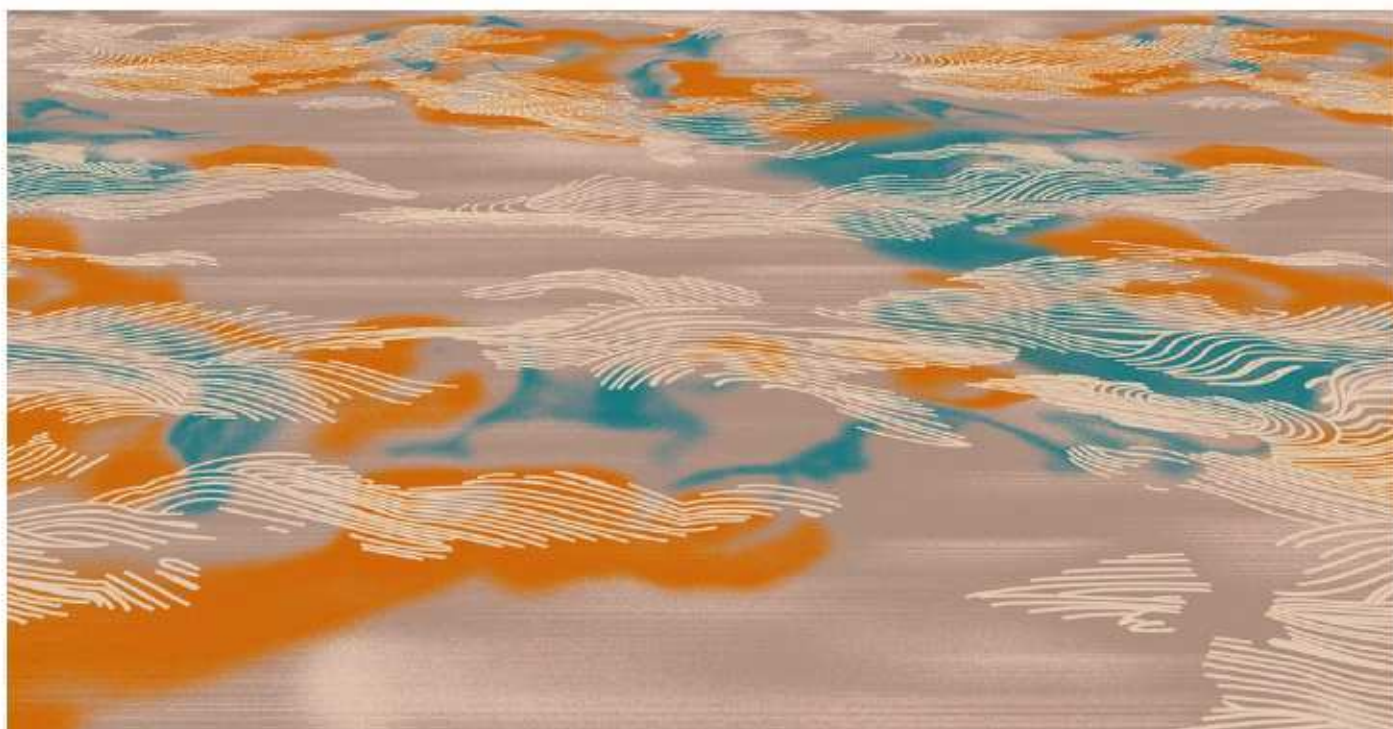

This design is created by stamping holes of different shapes and sizes into aluminum panels/sheets

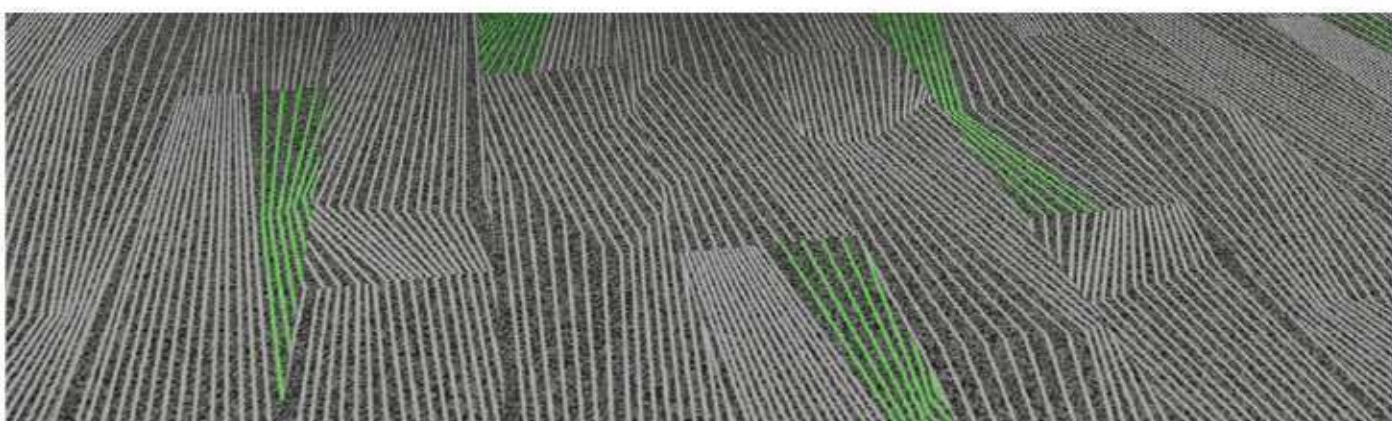

Many designs come with ventilation holes to easily integrate with indoor ventilation systems

CARPETING

We supply flame-retardant carpets in many styles and many sizes - from offices to massive dining halls.

Printed Carpets

Printed Carpet Tiles

SOFT PORCELAIN FLOORING

Soft porcelain is made from natural minerals, resins and fibers. Typical soft porcelain uses stone powder, clay, lime, loess, laterite etc. to create a porcelain-like material that is flexible and impact resistant.

- 3-3.5mm thick
- Flexible
- Impact resistant
- Non-toxic
- Fireproof
- Frost resistant
- Heat resistant
- Absorbs sound
- Many available colors
- Odorless
- Doesn't fade
- Easy to maintain

OUTDOOR COMPOSITE WOOD PANELING

These composite wood panels are made from recycled wood and synthetic fibers.

- Resistant to heat, cold, rain, scratch, impact and mold
- Stable color
- Perfect for outdoor use
- Termite proof
- Low maintenance
- Eco-friendly materials
- Anti-slip surface

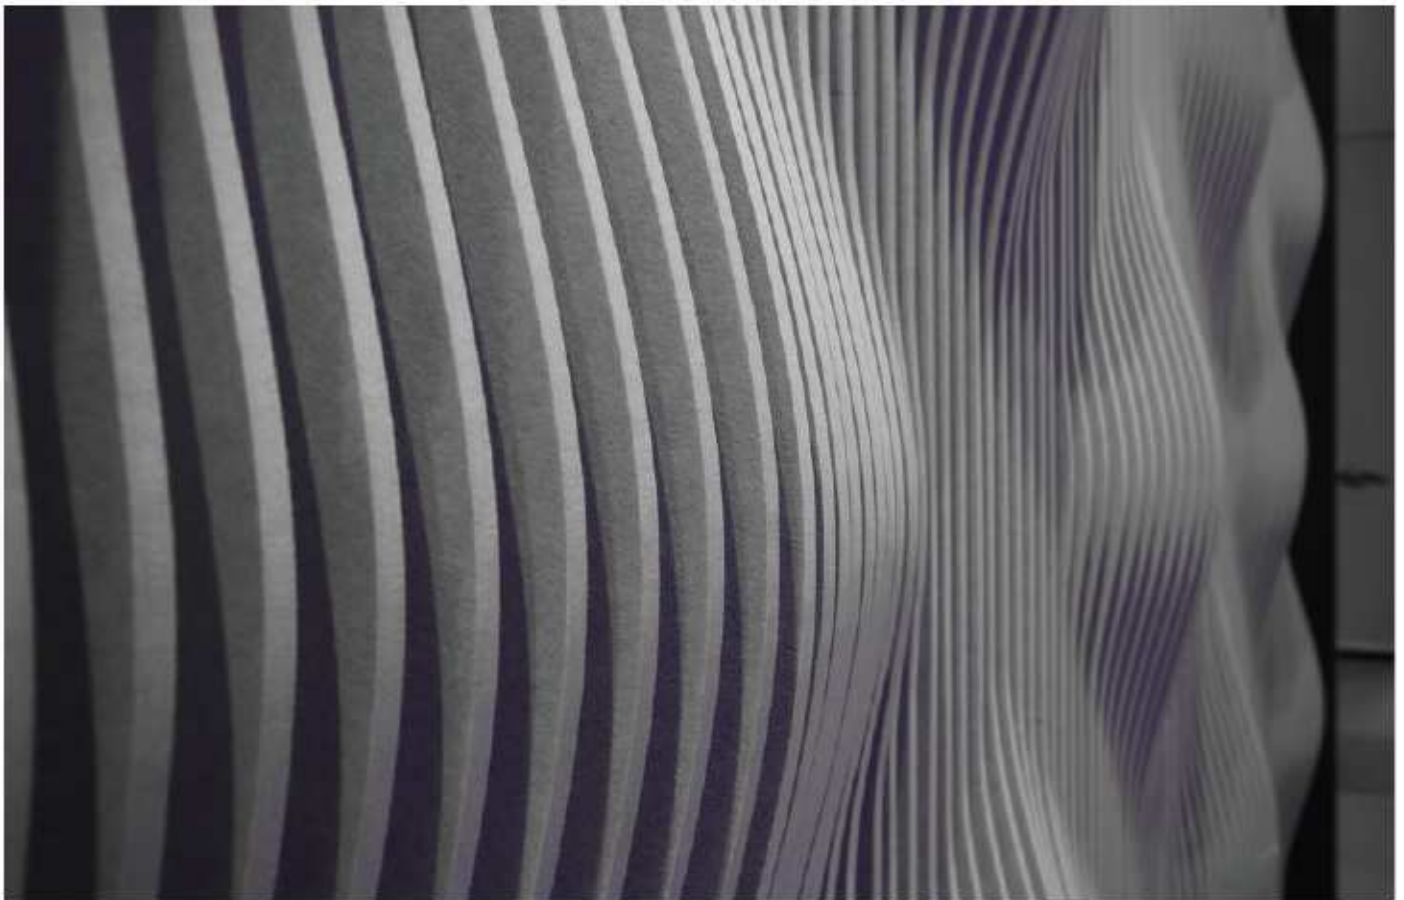

Solid and fluted panels in many sizes/thicknesses/colors are available

ACOUSTIC WALL PANELING

All designs are available in many colors and configurations. 100% PET just like the ceiling panels.

CONTEMPORARY CHINESE FURNITURE

CONTEMPORARY CHINESE FURNITURE

We specialize in customizing contemporary Chinese-style furniture. Our designs draw inspiration from the simplicity of Ming and Song dynasties, reimagined through clean lines and minimalist structure that suit today's living and learning spaces. We carefully select high-quality woods to reflect both beauty and function for example, black walnut, ash wood, beech wood, rubber wood, elm wood, South American walnut and oak. Every piece is crafted to honor tradition while embracing the needs of modern life.

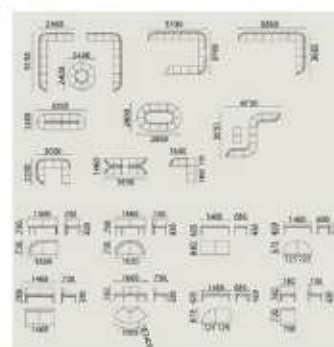

HOTEL FURNITURE
